Stilleben

About the founders

Stilleben was founded in 2002 by Ditte Reckweg and Jelena Schou Nordentoft. Both are educated product designers from The Royal Danish Academy of Fine Arts, specializing in glass and ceramics.

Their shared passion for good craftsmanship and peculiar objects has been part of Stilleben since the very beginning.

With the opening of the first flagship store in the old center of Copenhagen, Stilleben quickly became synonymous with a carefully curated and handpicked selection of handmade ceramics and glassware, one of a kind-products, textiles and prints.

The online store launched in 2006, and since 2017 the spacious Stilleben flagship store has been located in Frederiksborggade 22, in central Copenhagen near Nørreport station and the city Foodhall.
